

NEW HORIZON COLLEGE OF ENGINEERING

Autonomous College Permanently Affiliated to VTU, Approved by AICTE & UGC
Accredited by NAAC with 'A' Grade & Accredited by NBA

Title	Guest talk on “Critical Thinking and Innovation”	
Department	Department of Applied Sciences	
Date	26-09-2024	
Time	From: 2.00 PM	To: 3:30 PM
Brief Description	<p>On September 26, the Department of Applied Sciences had organized a guest lecture for first-year B.E. students on "Critical Thinking and Innovation." The speaker explored critical thinking and various thought processes, encouraging students to think beyond conventional boundaries. He emphasized the difference between critical thinking and merely relying on book knowledge, highlighting how creative thinking helps individuals stand out. By being a critical thinker, one can save time, money, and effort. He also shared the message that "Success follows excellence, and excellence follows intelligence." The speaker underscored the importance of working smarter rather than harder, stating that creativity and innovation are the hallmark of any organization. Throughout the session, he presented videos on critical thinking and smarter approaches to problem-solving, keeping the audience engaged with humor and puzzles.</p>
