NEW HORIZON COLLEGE OF ENGINEERING EVENT NAME: Guest Talk

DATE: 12/05/2025

VENUE: Falconry Seminar Hall

BRIEF DESCRIPTION OF THE EVENT: Renewable energy is derived from natural processes that are replenished at a faster rate than they are consumed, such as sunlight, wind, rain, tides, waves, geothermal heat, and more. Unlike fossil fuels, renewable energy sources produce little to no greenhouse gas emissions, making them crucial in combating climate change and promoting sustainable development. India is the world's third-largest producer of renewable energy, with 46.3% of its energy capacity installed as of October 2024 coming from renewable sources. The country aims to achieve 500 GW of renewable energy capacity by 2030.

ACTIVITIES CONDUCTED: PPT, Video demonstration

NO. OF PARTICIPANTS: 180

WINNERS (if any, for activities conducted):

GUEST DETAILS: Dr.S.T.Aruna, Chief Scientist, Surface Engineering Division, CSIR-National Aerospace Laboratories, Bengaluru, India.

PHOTOGRAPHS OF THE EVENT:
